
Phostacon ODPP

Phostacon ODPP

Chemical Name: Diphenyl isooctyl Phosphite
CAS No.: 26401-27-4

Technical data

Appearance	Clear liquid
Acid Value	≤0.1 (mg KOH/gm)
Phosphorus content	9.0%
Colour (APHA)	≤50
Refractive Index	1.5210 – 1.5230 (25°C)
Specific gravity	1.040– 1.047g/m ³ (25°C/15°C)

Application

Phostacon ODPP is an alkyl-aryl phosphite which can be used as a color and processing stabilizer in ABS, polycarbonate, polyurethane, coatings, and PET fiber where regulatory approval for food contact is not required. It can be used as a secondary stabilizer to improve color and heat stability in PVC.

Packaging

Available packaging: 200KG steel drums
