
SilQon OCTEO

SilQon OCTEO

Chemical Name: N-Octyltriethoxysilane
CAS No.: 2943-75-1

Technical data

Appearance (visual)	Colorless clear liquid
Purity (GC)	≥98.0%
Color (Pt-Co)	≤30
Refractive index	1.4090 – 1.4190

Application

SilQon OCTEO can be used:

- as a surface modifier to generate hydrophobicity (e.g. on concrete, glass, inorganic pigment, or mineral fillers)
- When diluted with an appropriate solvent, it can be used in the formulation of water repellent products. Upon proper application, the formulated product will penetrate and provide water repellency by chemically reacting with the cementitious substrate. Treated substrates are hydrophobic and retain their original appearance.

Packaging

Available packaging: 20Kg drums, 170 Kg drums, 900 Kg IBC
