## Iniper 50

---

### Iniper 50

Chemical Name: 2,2'-Azobis(2-methylpropionamide)dihydrochloride  
CAS No.: 2997-92-4

### Technical data

Appearance	White granules
Assay	≥98%
Volatility	1.0 % max
Color APHA	100 max

### Application

- Polymerization of acrylamide
- Polymerization of acrylonitrile
- Polymerization of acrylic acid

### Packaging

Available packaging: 20 KG carton boxes / fiber drums
