
Rostabil TPP

Rostabil TPP

Chemical Name: Triphenyl phosphite
CAS No.: 101-02-0

General

Rostabil TPP provides excellent color improvement and heat stability for polyurethane, resins and rubber.

Technical data

Appearance	Clear homogeneous liquid
Assay	≥ 97%
Phenol content	≤1.00%
Acid Value	≤0.5 (mg KOH/g)
Phosphorus content	9.8 – 10.0%
Color (Hazen)	≤50
Refractive Index	1.587 – 1.590 (n ₂₅ /D)
Density at 25°C, g/ml	1,180 – 1,186

Application

Rostabil TPP can be used in several polymer applications, including adhesives, coatings, epoxies, polycarbonates, polyesters, polyurethanes, PVC and styrenics.

Packaging

Available packaging: 225KG steel drums and 1.000KG IBC.
